

PACKAGING

that's in tune

WITH TODAY'S WORLD

LET'S WORK
TOGETHER
TO CREATE A
BALANCED EARTH

Because you need disposable packaging when you are eating on-the-go, we buy packaging that is recyclable or compostable that's kinder to our habitat.

Our company name may not contain the words 'Nature', 'Veg' or 'Eco' but Café Connections has a long standing and ongoing commitment to environmentally friendly packaging - which is why the majority of our range is just that!
